

BEOPLAY S8

Solid sound

SOLID SOUND AND STYLISH CURVES

BeoPlay S8 is an excellent combination of small, attractive physics, great sound performance and a truly unique design. Highly flexible and compact for maximum adaptability, and featuring hasslefree connection to your TV and audio source. BeoPlay S8 has a powerful and precise subwoofer and two satellite speakers that are hand-tuned by the acoustics department to give you the Bang & Olufsen Signature Sound; honest and clean the way the artist intended it. The craftsmanship of the speaker is best in class - with premium quality materials like pearlblasted aluminium bringing both acoustic stability and overall solidity.
