

Iconic sound. All round.

A statement in sound and sight. Beoplay A9 makes every musical moment rich, detailed and immersive – all from a seamless circular shape that blends in beautifully or stands out confidently.

Crafted from premium anodised aluminium, wool-blend Kvadrat fabric and real oak, it's a timeless work of art that can be customised to match your space and taste.

When it's time to dial up the volume, simply slide your finger gently across the top surface – and with a simple tap you can skip to the next or previous track and play/pause your music.

FEATURES

Fill any room with remarkable music

Beoplay A9 unearths new details in your favourite music. Experience full-bodied bass, thumping mids and crystal-clear highs. And if you want to elevate your listening experience at home, simply connect A9 with other Bang & Olufsen Connected Speakers and enjoy seamless sound as you move from room to room.

Hands-free control with your voice

With built-in Google Assistant, the latest generation of Beoplay A9 offers even smoother interaction, allowing you to shape your listening experience with simple voice commands — like playing your favourite album, finding information on a track or even planning your day by setting alarms, all without lifting a finger.

Striking, whether on or off

Beoplay A9 is not just for the ears. We designed it like a beautiful piece of furniture – with carefully selected materials and uncompromising attention to detail. The result is an iconic piece of design you can put on display anywhere.

KEY SELLING POINTS

Rich room-filling sound

A9 fills any space with powerful, potent sound. Whether placed proudly in the centre of a large room or tucked neatly away in a corner, audio quality is automatically optimised with the help of Active Room Compensation – meaning you always hear the details just as the artist intended.

Customisable beauty

Whatever your interior style, A9 can blend in beautifully or stand out confidently. But one size doesn't have to fit all: choose from a range of tactile covers designed by the world-leading textile company Kvadrat, plus a series of real wood legs with natural detail.

Slide and tap control

When it's time to dial up the volume, simply slide your finger gently across the top surface. With a simple tap you can skip to the next or previous track and play/pause your music. No buttons necessary.

Part of Connected Speakers

Add A9 to any connected speaker set up and experience immersive music throughout your home. Play the same song everywhere or different songs in different rooms – you are in control.
