

# BEOREMOTE ONE

## BEOREMOTE ONE BLUETOOTH

One remote to control everything. It gives you intuitive and easy access to all your Bang & Olufsen products as well as loads of other products like your cable TV box or Blu-Ray player. BeoRemote One Bluetooth works with both Bluetooth and IR commands.

BeoRemote One is crafted from a single, extruded piece of aluminium and has a surprisingly slim feel to it.

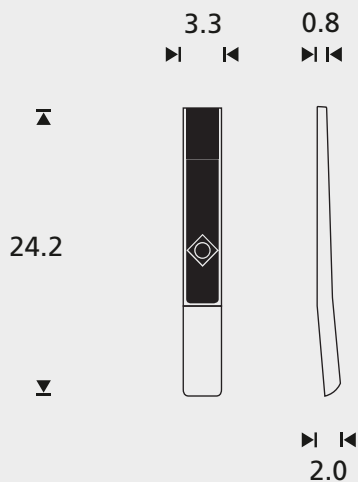

**BANG & OLUFSEN**
