

## Beauty from every angle

A minimalist speaker that maximises your music experience: Beosound Balance is an award-winner for a reason. The simplicity of its design, rooted in Scandinavian minimalism, contrasts strongly with its raw, high-performing sound. It plays out your favourite music in every direction, in any room.

Built-in proximity sensors welcome you by lighting up the controls when you're close by, otherwise leaving only the sleek aluminium surface visible.

### IMPORTANT FEATURES

- Minimal design
- Adaptive sound
- Natural materials
- Part of Connected Speakers

## BASIC

### Product dimensions

D x H: 20 x 38 cm

### Weight

7.2 kg

## PRODUCT DESCRIPTION

# Beauty in balance

## COPY BLOCKS

### 5 words:

A minimalist speaker that maximises your music.

### 10 words:

A minimalist speaker that maximises your music experience in any room.

### 25 words:

A minimalist speaker that maximises your music experience. Beosound Balance is perfect for placing against a wall, on a shelf or on a side table.

### 50 words:

A minimalist speaker that maximises your music experience. Beosound Balance is perfect for placing up against a wall, on a shelf or on a side table. With Active Room Compensation and a 360-degree design, it delivers full-bodied sound that automatically adapts to the room for flawless playback, always.

### 100 words:

A minimalist speaker that maximises your music. Beosound Balance is perfect for placing against a wall, on a shelf or on a side table. With Active Room Compensation and a 360-degree design, it delivers full-bodied sound that automatically adapts to the room for flawless playback, always. Built-in proximity sensors welcome you when you approach – controls appear when needed and then dim to leave only the sleek aluminium surface visible. With carefully curated materials, colours and finishes – like solid oak and marble, knitted textiles and crafted aluminium – it's the perfect balance between elegant and approachable beauty.

## KEY SELLING POINTS

### **Exterior elegance.**

#### **Interior intelligence.**

Beosound Balance is designed to be placed against a wall, on a shelf or on a side table. Regardless of its position, with Active Room Compensation it will always deliver a flawless, full-bodied sound experience – one that's impressively powerful compared to its size.

#### **Stunning sound, the way you want it.**

The choice is yours when it comes to how you want to listen. With Adaptive Bass Linearisation, Balance delivers strong bass performance and a broad sound image for truly room-filling music – and features Sound Directivity for focused listening from all positions. You get it all in one elegant package.

#### **Honest natural materials.**

Less like a speaker and more like a sculpture, Beosound Balance packages the latest audio technology in beautiful interior object form. The simplicity of this design – a precision-crafted aluminium grill paired with a solid marble or oak wood base – is rooted in Scandinavian minimalism and contrasts strongly with the speaker's raw performance.

### **Part of Connected Speakers**

Add Balance to any connected speaker set up and experience immersive music throughout your home.

Play the same song everywhere or different songs in different rooms – you are in control.
